AAA Foundation for Traffic Safety

Saving lives through research and education

The AAA Foundation for Traffic Safety is dedicated to saving lives and reducing injuries by preventing traffic crashes. For more than 50 years, the AAA Foundation has been a publicly supported, non-profit, 501(c)(3) charitable research and educational organization.

Our mission is to research why motor vehicle crashes happen and educate the public about how to avoid problems on the road. We offer useful information to everyone who uses the road — pedestrians, cyclists, children, drivers young and old, school bus passengers, school safety patrols, and more. Recent research reports are available on transportation for seniors, driver distraction, drowsy driving, and violent aggressive driving, or “road rage.” Research is only the beginning.

The Foundation uses its research to create focused, high-impact educational materials for all age groups. Knowledge is the first step to becoming a better driver. The Foundation’s materials seek to give motorists, bicyclists, and pedestrians new skills, sharpen old ones, and change attitudes — the first step to changing behaviors.

CD-ROMS FOR DRIVERS

driver-ZED®

Interactive Risk-Management Training CD-ROM

(1998, 2 hours of fun, interactive material—designed for teens)

Award-winning crash course in crash prevention!

Premier product cost \$750,000 to develop.*

Experience the thrill of driving on your PC. Full-screen, full-motion, real-life interactive video puts you in the driver's seat. You'll use your eyes and brain to spot trouble before it happens. Spot all the risks and handle them right, and you'll score a perfect 100. But watch out — it's harder than you think.

Realistic display shows you three views of the action — even the rear-view and side mirrors.

The *driver-ZED*® CD-ROM puts you into more than 80 live-action situations — the equivalent of several years of actual driving. You'll face everything from a child chasing a ball into the street to dangerous two-lane passing. You'll learn how to see danger by actually experiencing it on your computer instead of behind the wheel. Does *driver-ZED*® do any good? *driver-ZED*® has now been evaluated under real driving conditions and has been shown to produce statistically significant improvements in the risk management skills of young teen drivers. Visit our webpage www.driverZED.org to see the results.

Improved CD-ROM for IBM PC-compatible computers: (Requires Pentium 200 w/ MMX or better, 16 MB RAM/32 MB RAM recommended, 4X CD-ROM, 10 MB free hard disk space, and graphics card with video acceleration and at least 2MB VRAM.)

#110 \$19.95

#113 driver-ZED metric version \$19.95

NEW CD-ROM for Macintosh computers

The same great program that has been improving the risk management skills of teen drivers is now available for Mac users. Be sure to check the minimum requirements below, and order today!

(Requires Power PC Processor 150 MHz or greater, Mac OS 8.6 or higher, Quicktime™ 3.0.2 and Quicktime™ MPEG, 32 MB RAM minimum, 64 MB Virtual Memory, display set to 16 bit [256 or thousands of colors; will not operate at 32 bit or millions of colors]; Audio: any Mac with OS 7.5 or higher, 4X CD-ROM speed or greater, 90MB Hard Disk Space minimum)

#111 NEW driver-ZED CD-ROM for Macintosh computers \$19.95

Policies for using driver-ZED on a network

All versions of driver-ZED can be run on a network provided the following licensing requirements are met:

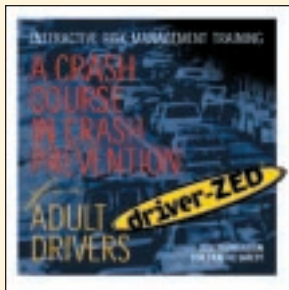

- At least one CD-ROM of driver-ZED has been purchased at the regular price
- Additional licenses, at \$7.50 per license, have been purchased on a simultaneous per-seat basis.

Example: A 20-workstation network would require the purchase of one CD-ROM at \$19.95 (\$27.95 for the adult version) plus 19 additional licenses at \$7.50 each. If only 5 of 20 workstations will be used simultaneously, then the licensing requirement is one CD-ROM at \$19.95 plus 4 additional licenses at \$7.50 each.

#120

*driver-ZED® has been entirely produced thanks to charitable contributions from the American Automobile Association and the Canadian Automobile Association and their affiliated motor clubs; from thousands of individual AAA members; and from AAA-affiliated insurance companies.

The AAA Foundation developed this program in response to a serious need for better training of teen drivers — sixteen-year-olds have 20 times the number of crashes per mile as the average driver. AAA Foundation research identified inappropriate risk management as one of the key contributors to this tragically high crash rate. The AAA Foundation for Traffic Safety hopes that this product can help reduce teen drivers' crashes, but assumes no liability for its use or misuse.

Note: *driver-ZED® for Adult Drivers* includes five video clips featuring Safe Driving Tips from the the AAA Foundation's educational videos. From the main menu, select "Driving Tips." Read the list of titles, listen to a brief summary, then click on one of the following selections:

Unlocking the the Mystery of AntiLock Brakes (5:04)

Teaches proper braking techniques with braking demonstrations by a car with ABS and one without, offers expert advice and answers to frequently asked questions.

Dangerous Crossings:

Rail Highway Grade Crossings (2:02)

Can you judge a train's speed? Its distance from you?

Aggressive Drivers (1:30)

Real world advice from a professional truck driver.

Preventing Road Rage (2:31)

Teaches how to avoid offending other drivers, control your own anger and disengage from an angry encounter. Exciting footage of on-the-road encounters between angry drivers and anecdotes from people who have practiced anger management techniques.

Sharing the the Road (1:42)

How to drive with trucks on today's congested highways.

NEW driver-ZED® for Adult Drivers CD-ROM
(2000, 2 hours of interactive material, Adults, Skills)

ZED stands for "Zero Errors Driving," and that's what you'll try to achieve. *driver-ZED® for Adult Drivers*' full-screen, full-motion video puts you behind the wheel and guides you through 67 real-life driving sequences designed to enhance your ability to recognize and deal with emerging risks. The driving sequences take place in a mix of highway, urban, and rural settings. Over the course of three 45-minute sessions, the program places you in a broad variety of potentially dangerous situations.

Your score is based on how well you respond to the risks in each driving sequence. You start *driver-ZED® for Adult Drivers* with a perfect score of zero which increases with each error you make.

driver-ZED® for Adult Drivers is designed to support a variety of uses. It may be used independently at home, or it can be installed in a classroom setting and provide centralized record keeping among several computers on a LAN. The program can also provide non-scored, direct access to all driving sequences to support use by an instructor.

(Requires IBM PC Compatible; Intel® Pentium II class or better processor, or AMD® K6-2 processor with 3DNow!™ technology, and 2 MB graphics card with video acceleration and MPEG1 support; Windows® 95, 98, and NT4; 32 MB RAM minimum, 64 MB recommended; VGA resolution with 65,000 colors [16 bit]; 16 bit SoundBlaster® compatible sound; 4X CD-ROM speed or greater; 12 MB Hard Disk Space minimum)

#112

VIDEOS FOR DRIVERS

NEW VERSION! THE NEW CHILDREN IN TRAFFIC

(1999, 13:10 minutes, Adults)

Updated and revised version of the AAA Foundation's classic video. Children see the road differently than adults. How does children's development affect their perceptions of traffic? What behaviors should adults watch for when driving near children? This video presents real-life footage showing how children's perceptions of traffic differ from those of adults. It provides insight on why children behave unexpectedly and is a must-see for all drivers.

#964

\$19.95

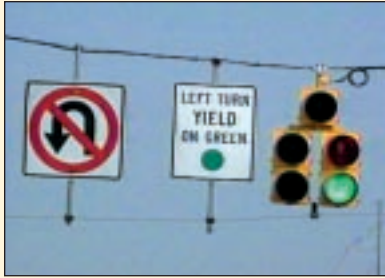

Preventing Road Rage: Anger Management for Drivers

(1998, 20:05 minutes, Adults)

Violent aggressive driving, or "road rage," is a growing public concern. This educational video teaches viewers how to: avoid offending other drivers, manage their own anger, and disengage from an angry encounter. *Preventing Road Rage* is illustrated with exciting footage of on-the-road encounters between angry drivers and personal anecdotes from real people who have reformed themselves by practicing anger management techniques demonstrated in the program.

#963

\$24.95

Signs, Signals, and Markings: Understanding the Language of the Road

(1995, 16:00 minutes, Adults, Skills)

Describes the underlying rules and logic behind traffic control signs, signals, and markings. Demonstrates the importance of obeying signs to drive safely. Spanish version available (*Rotulos, Senales y Marcas*).

#469

\$21.95

#470 (Spanish)

\$21.95

Unlocking the Mystery of AntiLock Brakes

(1997, 15:45 minutes, Adults, Skills)

A private eye is working late one night and hears a crash — was it the brakes? Learn how to use antilock brakes properly and how vehicles equipped with antilock brakes handle differently than those with conventional brakes.

#833

\$19.95

Semi Conscious — Driving in the Real World

(1996, 11:30 minutes, Teens/Young Adults, Skills)

Four teenagers demonstrate basic tips for sharing the road with trucks, using music to reinforce their message. Entertaining as well as informative, this video is popular in driver education classes.

#477

\$14.95

Just Another Saturday Night

(1998, 13:26 minutes, Teens/Young Adults, Discussion Trigger)

Follow-up to the Foundation's classic video, *Just Another Friday Night*. A night of revelry turns tragic when a popular college-bound student takes the wheel after several drinks. Dramatizes the events and decisions leading up to a drunk driving tragedy. Courtroom dialogue encourages further discussion about the personal and legal consequences of drinking and driving. Updated look and characters make this video a must-have for anyone who has used the original.

#650

\$19.95

Dangerous Crossings: A Second Thought

(1994, 16:30 minutes, Adults, Attitudes)

Dramatic real-life footage shows what can happen when drivers fail to yield at railroad crossings. Testimonials from people involved in railroad crossing tragedies reinforce the consequences of this risky behavior. Contains special information for law enforcement officials on promoting railroad crossing safety.

#414 Original version for police

\$14.95

#416 Revised version for general public

\$14.95

Using Your Eyes Effectively

(1994, 9:34 minutes, Adults, Skills)

Demonstrates effective scanning techniques for safe driving. Learn how to gather information through central and peripheral vision, and where to concentrate attention on the roadway. Also covers the effects of alcohol on a driver's visual perception. Spanish version available.

#488

\$17.95

#489 (Spanish)

\$17.95

Driving in Bad Weather

(1994, 9:18 minutes, Adults, Skills)

Newscast-style presentation dramatizes the blinding effects of fog, dust, smoke, rain, snow, and ice. Stresses the need to choose safe speeds for adverse weather conditions and explains when it is best to get off the road. Video includes tips on vehicle maintenance that can help drivers prepare for bad weather.

#419

\$17.95

Breaking the Accident Chain of Events

(1994, 7:04 minutes, Adults, Attitudes)

Dramatizes through vignettes the chain of events leading to a traffic crash. Emphasizes the need to be a responsible driver by staying alert, being decisive, and being polite and reasonable in traffic.

#403

\$17.95

Night Driving

(1994, 8:49 minutes, Adults, Skills)

Demonstrates how darkness limits drivers' vision. Includes tips to keep your car in shape for night driving. Discusses the biggest problems drivers experience at night and how they must adjust their driving habits.

#453

\$17.95

Freeway Driving

(1994, 7:52 minutes, Adults, Skills)

Freeways demand quicker thinking than conventional roadways! This video shows how to merge onto a multilane highway smoothly and decisively, how to handle weave lanes (lanes used as both entrance and exit lanes), and how to exit.

#431

\$17.95

Getting Safely Past the Orange Barrels

(1992, 11:52 minutes, Adults, Skills)

Promotes cooperation in protecting the lives of highway construction workers. Shows what construction signs, signals, and markings mean and how to adjust driving when passing through road construction areas.

#433

\$17.95

Managing Space and Time for Safe Driving

(1991, 9:04 minutes, Adults, Skills)

Illustrates how good drivers continually adjust their speed and position to maintain a safe space cushion in traffic. Emphasizes the importance of safe following distances and active scanning to stay alert to what is going on ahead, to the side, and behind.

#449

\$17.95

Sharing the Road

(1994, 7:18 minutes, Adults, Skills)

Helps motorists understand the special concerns and dangers faced by pedestrians, truck drivers, motorcyclists, bicyclists, and ambulance drivers. Presents specific tips on how to reduce the risks of sharing the road.

#468

\$17.95

The Safest Way Out: General-ed Driver Version

(1997, 16:50 minutes, Adults, Skills)

Shows drivers how to properly prepare for and conduct an emergency school bus evacuation. Demonstrates how to assist children in evacuating the bus quickly, how to use all types of emergency exits, and how to secure the scene once the bus has been evacuated. Designed for use in school bus driver training classes.

#512

\$21.95

The Safest Way Out: Special-Needs Driver Version

(1997, 16:50 minutes, Adults, Skills)

Shows drivers of special-needs school buses how to properly prepare for and conduct an emergency evacuation. Details how to release wheelchairs from modern restraint systems, how to properly lift mobility-impaired children, and how to assist hearing and visually-impaired children to evacuate the bus safely.

#513

\$21.95

The Older and Wiser Driver

(1996, 22:38 minutes, Older Adults, Skills)

Award-winning video shows how to compensate for changes that come with age to continue driving safely. Learn about vision, cognition, physical fitness, and the side-effects of common medications as older drivers discuss their strategies for safe driving in their own words. This engaging video is equally well-suited for home or classroom use.

#820

\$17.95

SCHOOL BUS SAFETY VIDEOS

The Safest Way Out: Emergency School Bus Evacuation

Shouldn't your kids know the safest way out? The three versions of this video show how to use all types of exits currently outfitted on modern school buses and discuss different evacuation patterns. Lively presentation and state-of-the-art production make the entire set a must-have for any school video library.

The Safest Way Out: General-ed Student Version

(1997, 12:20 minutes, K-9th Grade, Skills)

Shows children how to properly prepare for and execute an emergency school bus evacuation. Demonstrates how to safely exit from front, rear, side, and multiple exits, emergency windows and roof hatches, and when each exit is appropriate. Designed for classroom use.

#511

\$19.95

The Safest Way Out: General-ed Driver Version

(1997, 16:50 minutes, Adults, Skills)

Shows drivers how to properly prepare for and conduct an emergency school bus evacuation. Demonstrates how to assist children in evacuating the bus quickly, how to use all types of emergency exits, and how to secure the scene once the bus has been evacuated. Designed for use in school bus driver training classes.

#512

\$21.95

The Safest Way Out: Special-Needs Driver Version

(1997, 16:50 minutes, Adults, Skills)

Shows drivers of special-needs school buses how to properly prepare for and conduct an emergency evacuation. Details how to release wheelchairs from modern restraint systems, how to properly lift mobility-impaired children, and how to assist hearing and visually-impaired children to evacuate the bus safely.

Includes items #511, #512, and #513.

Otto the Auto on School Bus Safety

(1994, 14:36 minutes, K-6th Grade, Attitudes)

Before You Go on the Bus — Provides tips for getting to the bus stop safely. Encourages children to walk, not run, organize their belongings in a book bag or backpack, and be on time.

Waiting for and Getting on the Bus — Teaches children to stand back from the bus stop, avoid playing around, and board the bus in an orderly fashion.

Safe Behavior on the Bus — Teaches kids the importance of remaining seated on the bus, keeping clear of the aisle, and allowing the driver to drive free of distractions.

The Danger Zone — Discusses the dangers of walking too close to a school bus, and shows kids areas around the bus where they cannot be seen by the driver.

SCHOOL SAFETY PATROL VIDEOS

At Your Post

(1996, 15 minutes, 3-6th Grades, Skills)

The seven versions of “At Your Post” incorporate techniques and information for training school safety patrols. Choose from the national version or six regional versions that reflect special patrol uniforms and procedures in Canada and different parts of the United States. Each video demonstrates how to determine a safe gap in traffic, what a patrol should look for at normal crossings, T-intersections, one-way streets, rural crossings, and signed or signalized intersections. Each version also shows patrols how to work with adult crossing guards. These videos are designed to fit into almost any safety patrol training program.

At Your Post — National version describes standard patrol techniques suitable for programs throughout the United States. Patrol members wear the traditional orange “Sam Browne” belts and silver badge. Includes an optional section for school bus patrols.

Between the Lines: Adult School Crossing Guard Training

(1992, 21:00 minutes, Adults, Skills)

This video covers basic adult school crossing guard procedures at several types of intersections. Uses diagrams and an expert crossing guard to model proper procedures. Though produced by AAA Michigan for Michigan crossing guards, the information is also generally suitable for crossing guard programs in other areas.

#404

\$24.95

BICYCLE, PEDESTRIAN, AND PASSENGER SAFETY VIDEOS

Biking: Get the Big Picture

(1994, 8:19 minutes, 6-8th Grade, Skills)

Fast-paced presentation emphasizes visual skills needed to ride a bicycle safely. Provides tips for riding near parked cars, intersections, and making left turns.

#402

\$17.95

The Safest Way Out: General-ed Student Version

(1997, 12:20 minutes, K-9th Grade, Skills)

Shows children how to properly prepare for and execute an emergency school bus evacuation. Demonstrates how to safely exit from front, rear, side, and multiple exits, emergency windows and roof hatches, and when each exit is appropriate. Designed for classroom use.

#511

\$19.95

Otto the Auto Series

Popular video series of single-concept mixed animation videos for primary grade levels using an animated safety car called “Otto the Auto.” Videos present basic pedestrian, passenger, and bicycle safety education lessons in short, amusing, “Sesame Street”-style learning sequences. Each “Otto the Auto” series is contained on a single videotape.

The Foundation is pleased to offer three of the Otto the Auto titles in open-caption format: *Being Seen in Traffic*, *Wearing Safety Belts*, and *School Bus Safety*. Millions of individuals benefit from captioning. Captions provide viewers who are deaf or hard of hearing with as much of the information provided on the audio track as possible. Open captioning allows viewers to access the dialogue without the use of any special equipment or decoder devices. Now even more people can learn how to be safe while having fun with Otto the Auto.

Otto the Auto on Bicycle Safety

(1994, 16:10 minutes, K-6th Grade, Skills)

Four presentations teach children about different aspects of bicycle safety.

Basic Riding Rules — Teaches children to avoid darting out into traffic by observing “borders” along sidewalks, driveways, alleys, and streets. Shows them how to choose safe riding areas.

Picking the Right Bike — Shows children how to choose a bicycle that fits properly and how to equip it for visibility and safety.

Fitting Your Helmet — Shows children how to wear bicycle helmets properly, what fits and what doesn’t, and why helmets are important.

Drive Your Bike Like a Car — Demonstrates how to “drive” a bike by looking for openings in traffic, signaling for turns and stops, riding with traffic, and scanning for cars and pedestrians.

#472

\$21.95

Otto the Auto on Pedestrian Safety

(1994, 16:14 minutes, K-6th Grade, Skills)

Four presentations teach children how to behave in various pedestrian situations.

Street With No Sidewalks — Teaches children to walk at the edge of the road facing traffic on streets without sidewalks.

Crossing the Street — Shows where to look and how to cross a street when no WALK signal is present.

Crossing Streets at Busy Corners — Demonstrates how to cross a street at a busy intersection with a WALK signal.

Walking Between Parked Cars — Teaches children why they need to be cautious around parked cars and why drivers don't always see children when they're pulling out.

#474

\$21.95

Otto the Auto on Being Seen in Traffic

(1994, 13:38 minutes, K-6th Grade, Skills)

Three presentations teach children about pedestrian visibility and safety issues.

Darkness and Rain — Halloween motif teaches children how to dress to be seen at night or in bad weather by wearing bright colors and reflective materials, and carrying flashlights.

Watch-the-Cars — Shows children the view from the driver's seat to teach how difficult it can be for drivers to spot pedestrians.

Safe Places to Play — Emphasizes the danger of playing near traffic and parked cars. Teaches children how to choose safe places to play away from traffic.

#476

\$19.95

#479 **NEW!** Open-captioned version 

\$19.95

Otto the Auto on Wearing Safety Belts

(1994, 7:42 minutes, K-6th Grade, Attitudes)

Two presentations teach children why they need to wear safety belts and how to wear them.

Why Wear Safety Belts? — Uses an egg as a crash dummy to show how wearing safety belts reduces the risk of injury in a crash.

How to Wear Safety Belts — Demonstrates how to wear seat belts properly. Shows how seat belts fit over the hips and shoulder, and stresses the need to wear them in order for air bags to work effectively.

#471

\$17.95

#478 **NEW!** Open-captioned version 

\$17.95

Otto the Auto on School Bus Safety

(1994, 14:36 minutes, K-6th Grade, Attitudes)

Before You Go on the Bus — Provides tips for getting to the bus stop safely. Encourages children to walk, not run, organize their belongings in a book bag or backpack, and be on time.

Waiting for and Getting on the Bus — Teaches children to stand back from the bus stop, avoid playing around, and board the bus in an orderly fashion.

Safe Behavior on the Bus — Teaches kids the importance of remaining seated on the bus, keeping clear of the aisle, and allowing the driver to drive free of distractions.

ENHANCED VISIBILITY PRODUCTS FOR PEOPLE AND PETS

NEW! The AAA Foundation for Traffic Safety and Head Lites, Corp. have joined together to distribute these enhanced visibility products at or near cost. Our motto is “Saving Lives Through Research and Education” and the Head Lites motto is “Help Make the World a Safer and Brighter Place.” All products feature 3M Scotchlite™ Reflective Materials.

Pedestrian/Emergency Reflective Vest

Wear this durable high-visibility vest when you are out near the roadway. Perfect for nighttime activities including walking your dog, jogging, skating, and biking. Easily stored in your glove compartment in case of an emergency. Retro-reflective graphics in 3M Scotchlite™ enhance your visibility. Available in ultra-bright yellow-green mesh. One size fits all. Be safer. Be seen.

#501

\$14.95

Leg/Arm Bands

Brilliant reflection for nighttime activity! Great for bicyclists or joggers who need to enhance visibility at night. These eye-catching elastic bands stretch for comfort, fasten with Velcro™, and use 3M's bright Retro-reflective Material. A great way for cyclists to tuck in those pant legs and be seen. Available in ultra-bright fluorescent yellow-green.

#502

\$6.95 per pair

#503 Vest and Pair of Leg/Arm Bands

\$19.95

Includes item #501 and item #502.

#504 Cap

\$12.95

Terrycloth inner band for absorbency. Extended flexible visor allows the cap to slip into a pocket. The adjustable hook and loop closure allows the cap to fit most people. A perfect match with the vest (item #501).

#505 Vest and Cap

\$24.95

Includes item #501 and item #504. Both the vest and cap are made from the same fabric and utilize 3M Scotchlite™ Reflective Materials.

#506 High-Gloss Stickers and Reflectors

\$6.95

Perfect for enhancing the visibility of outerwear, footwear, helmets, and backpacks.

#525 Ultimate Visibility Package

\$36.00

Specially priced package includes Cap, Vest, Leg/Arm bands, and high gloss stickers. These enhanced-visibility products cannot ensure absolute visibility, so use extra care in any activity, day or night.

Retro-Reflective Dog Collar and Lead

Featuring 3M Scotchlite reflective materials, these collars and leads will help put a good reflection on your favorite pet and may help prevent an unfortunate accident.

These collars and leads will shine brilliantly when illuminated by auto headlights from up to 1000 feet. Enhance the visibility and safety of both you and your pet.

Extremely durable and long-lasting, they can be cleaned with a soft brush and mild detergent/soap and water.

Retro Reflective Dog Collar

	Size	Color	
#515	8" - 14"	Red & Gray	\$ 8.50
#516	12" - 20"	Red & Gray	\$ 9.50

9:00 a.m.–5:00 p.m. EST

An invoice is included with all shipments. Payment is requested within 30 days of receipt of materials. The AAA Foundation's Federal Tax ID number is 52-0794368.

Prices

All prices, volume discounts, and shipping charges are subject to change. The AAA Foundation prices its educational products as low as possible to disseminate this life-saving information to a wide audience. Call (800) 305-SAFE for volume discounts.

Shipping Policies

Domestic addresses: Please see shipping cost on order form.

Charges outside the U.S. and Canada: The shipping and handling charge is \$7.50 plus the actual cost of the shipping for foreign orders, or orders where air shipping or special handling is required or requested.

Please provide a complete street address when ordering materials.

Video Formats

All Foundation videotapes use US Electronic Standard NTSC-only 1/2-inch VHS format. International formats, such as PAL and SECAM, are available upon special request; call (800) 305-SAFE for conversion costs. All videotapes are in English and in color (Spanish videos and open-captioned videos are available where specified.). Please use the appropriate product number when ordering.

Reproduction of Foundation Videos

The AAA Foundation grants permission to reproduce its videos on a case by case basis for a \$7.50 fee per copy. To request this permission, write to the Foundation and include the name of the title you wish to duplicate, the number of copies you intend to make, your tax exempt id number, if any, and the proposed use of the copies. No AAA Foundation material can be reproduced for resale.

Return Policies

The AAA Foundation does not offer a loan program, but has a liberal return policy. Materials returned for credit or replacement will be accepted by the AAA Foundation for Traffic Safety, 1440 New York Ave., NW, # 201, Washington, DC 20005, if:

1. The materials are returned within 21 days from the date received
2. The postage for return shipments is prepaid
3. And all materials are returned in the same condition as received.

The refund is for the purchase price only and does not include shipping and handling.

Research Studies

Research reports are posted at www.aaafoundation.org. The AAA Foundation's materials are also available for review at the Washington, DC, office.

To contact the AAA Foundation staff, for media inquiries, research requests, or guidelines for submitting a proposal, please contact the AAA Foundation's administrative office by calling (202) 638-5944, (800) 993-7222, fax (202) 638-5943, www.aaafoundation.org or by writing:
